To Whom It May Concern,

I had the pleasure of working with Alexander Parks in 2021 as a supervisor of his fourth-year personal air vehicle capstone project. He had shown ambition and initiative throughout the project, particularly in conducting detailed analyses beyond the defined project scope, ultimately enhancing the quality of the proposed design.

His strong communication skills, balanced commitment to both the project and coursework, and determination to endure the many challenges presented by the project proved his willingness to succeed in any position. I can highly recommend Alexander for any opportunity you have available.

If you need any additional information, please feel free to contact me.

Best regards,

Owen Pintar
